TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript, TypeScript
- **Frontend:** React.js, Redux, HTML5, CSS3, Tailwind CSS, GSAP, Framer Motion
- **Backend:** Node.js, Express.js, RESTful APIs , JWT, Razorpay
- **Databases & Storage:** MongoDB, Redis, Cloudinary
- **Tools & Platforms:** Git & GitHub, Postman, VS Code, Vite, Vercel, Netlify, Render

PROJECTS

StudyNation **React.js, Node.js, Express.js, MongoDB** | Code: GitHub Demo: Live

- **Implemented MERN-based E-learning platform** enabling **more than 5 course** transactions, **student progress tracking**, and **instructor sales analytics dashboard**s using **React-Redux** state management.
- **Implemented JWT authentication** with OTP/password reset**, Razorpay payment** integration processing (**INR 1k+ transactions)**, and **Cloudinary media storage** for scalable course content delivery.
- **Optimized full-stack performance by 40%** via **Express.js REST APIs, MongoDB data modeling**, and **React + Tailwind UI** in **monolithic architecture**, enhancing scalability to support Over **10 concurrent** user.

EnviroMat (Team Project) **React.js, Node.js, Express.js, MongoDB** | Code: GitHub Demo: Live

- **Developed** a **credit-based waste management platform connecting users with recyclers** to **sell items, share eco blogs**, and **track community rankings** on a **leaderboard, fostering engagement** in **sustainable recycling**.
- **Engineered full-stack architecture** using React.js with **Redux Toolkit for state management, Node.js/ Express.js backend APIs, and MongoDB** database integration, implementing secure authentication, real-time data **synchronization**, and **responsive UI components** that **improved system performance by 20%**.
- **Delivered** a production-ready waste management platform integrating Razorpay payments, automated tracking, **Cloudinary** storage, and a community leaderboard, showcasing **full-stack** ownership and boosting engagement.

ACHIEVEMENTS

- **Winner – Exathon 2025: Led a 3-member team; ranked 1st among 100+ teams** with a **project.**(Certificate)
- **Secured 2nd Runner-Up** in **Smart Make-a-thon** among **200 teams** with a **sustainable project**. (Certificate)
- **Ranked** in the **Top 0.65%** (**Global Rank 3172** out of 400,000) in **TCS CodeVita Season 12.** (Certificate)
- LeetCode: **Solved 700+ problems (Rating 1518) with a 260-day streak, improving debugging speed by 20 percent and reducing runtime errors by 25 percent through consistent algorithm practice.**
- GeeksforGeeks: **Achieved Institute Rank 20 with 550 problems solved and maintained a 134-day streak.**

RELEVANT COURSEWORK

- **Data Structures and Algorithms**
- **Full Stack Development**
- **Object-Oriented Programming**
- **Machine Learning** (currently learning)

LEADERSHIP EXPERIENCE

Competitive Programming Core Team | GDG On Campus NSEC (Certificate) Aug 2024 – Present

- Spearheaded and organized **10+ DSA workshops and interactive coding challenges**, mentoring peers to foster cross-team collaboration, boost participation, and improve collective problem-solving accuracy by **25%**.

Competitive Programming Lead | Sourcify NSEC (Certificate) Nov 2024 – Present

- Led hands-on coding sessions on real-world DSA applications for 150+ participants, mentoring teams through problem-solving workflows and project development, which increased successful project completion rates by 30%.

EDUCATION

Netaji Subhash Engineering College, Kolkata, India Aug 2023 – Present

Bachelor of Technology in Computer Science and Engineering CGPA: 7.77/10 (till 4th semester)
